GENERAL RADIO EXPERIMENTER

VOLUMES XXII AND XXIII

June, 1947 to May, 1949

GENERAL RADIO COMPANY
CAMBRIDGE MASSACHUSETTS
U. S. A.

I N D E X

TO GENERAL RADIO EXPERIMENTER
Volumes XXII and XXIII, June 1947 through May 1949

Index by Title

Accuracy for the Precision Condenser, Increased (R. F. Field: June, 1947)

Amplifier and Null Detector, An Improved (W. R. Thurston: February, 1948)

Audio-Frequency Distortion and Noise Measurements (A. F. Thiessen: December, 1947)

Audio-Frequency Meter, A Bridge-Type (Martin A. Gilman: February, 1948)

Audio and Supersonic Frequencies, A Wide-Range Oscillator for (C. A. Cady: November, 1947)

Automatic Recording with the Beat-Frequency Oscillator (L. P. Reitz, I. G. Faston: January, 1948)

Beat-Frequency Oscillator, Automatic Recording with the (L. P. Reitz, I. G. Easton: January, 1948)

Braille, Bridge in (January, 1948)

Bridge, A Wide-Range Capacitance Test (Ivan G. Easton: July, 1948)

Bridge for Impedance Measurements at Frequencies between 50 Kilocycles and 5 Megacycles, A New (R. A. Soderman: March, 1949)

Bridge in Braille (January, 1948)

Bridge, Laboratory Exercises with the Vacuum-Tube (January, 1949)

Bridge, Measurements on I-F Transformers with the Type 916-A R-F (R. A. Soderman: January, 1949)

Bridge, Sensitivity of the Type 916-A Radio-Frequency (R. A. Soderman: January, 1948)

Bridge-Type Audio-Frequency Meter, A (Martin A. Gilman: February, 1948)

Broadcast and Television Services, Type 1170-A F-M Monitor for (C. A. Cady: October, 1947)

Cable, Coaxial Connectors for RG-8/U (February, 1949)

Capacitance Measuring Instrument, A Compact Radio-Frequency (W. F. Byers: November, 1948)

Capacitance Test Bridge, A Wide-Range (Ivan G. Easton: July, 1948)

Circuit for Regulation Measurements, A Variac (Gilbert Smiley: November, 1947)

Coaxial Connector for the Laboratory, A Radically New (W. R. Thurston: October, 1948)

Coaxial Connectors for RG-8/U Cable (February, 1949)

Compact Radio-Frequency Capacitance Measuring Instrument, A (W. F. Byers: November, 1948)

Compensators, The Microflash Looks at Shotgun (March, 1949)

Connector for the Laboratory, A Radically New Coaxial (W. R. Thurston: October, 1948)

Connectors for RG-8/U Cable, Coaxial (February, 1949)

Condenser, Increased Accuracy for the Precision (R. F. Field: June, 1947)

Controls, Variac Motor Speed (W. N. Tuttle: April, 1949)

Counter Tubes, Geiger-Mueller (March, 1949)

Counting-Rate Meter for Radioactivity Measurements, A (A. G. Bousquet: July-August, 1947)

Crystal Mode Indicator, A (J. K. Clapp: February, 1949)

Detector, An Improved Amplifier and Null (W. R. Thurston: February, 1948)

Distortion and Noise Measurements, Audio-Frequency (A. F. Thiessen: December, 1947)

Eccentricity Effects in Precision Rotary Devices (Gilbert Smiley: January, 1948)

Equivalent Circuit and Performance of Plated Quartz Bars, On the (J. K. Clapp: March-April, 1948)

Exercises with the Vacuum-Tube Bridge, Laboratory (January, 1949)

F-M Monitor for Broadcast and Television Services, Type 1170-A (C. A. Cady: October, 1947)

Fixed Brush Setting, Variac Operation with (Gilbert Smiley: May, 1948)

Frequency-Loudness Chart for Industrial Noise (September, 1947)

Frequency Monitor for Television Video Transmitters, A (C. A. Cady: September, 1948)

Frequency Monitor for Television Video Transmitters and Other A-M Services, A (C. A. Cady: September, 1947)

Frequency Standard, The Interpolating (J. K. Clapp: December, 1948)

GR Power Cord Now Available (June, 1948)

Geiger-Mueller Counter Tubes (March, 1949)

High-Power, Low-Speed Stroboscope, A (W. R. Saylor: May, 1949)

I-F Transformers with the Type 916-A R-F Bridge, Measurements on (R. A. Soderman: January, 1949)

Impedance Measurements at Frequencies between 50 Kilocycles and 5 Megacycles, A New Bridge for (R. A. Soderman: March, 1949)

Improved Amplifier and Null Detector, An (W. R. Thurston: February, 1948)

Increased Accuracy for the Precision Condenser (R. F. Field: June, 1947)

Indicator, A Crystal Mode (J. K. Clapp: February, 1949)

Industrial Noise, Frequency-Loudness Chart for (September, 1947)

Inexpensive, Basic Instruments for the Laboratory (November, 1948)

Instrument Better, Making a Good (D. B. Sinclair: June, 1948)

Instruments for the Laboratory, Inexpensive, Basic (November, 1948)

Interpolating Frequency Standard, The (J. K. Clapp: December, 1948)

Laboratory Exercises with the Vacuum-Tube Bridge (January, 1949)

Laboratory, Inexpensive, Basic Instruments for the (November, 1948)

Lamps and other Resistive Loads, Variacs Used with (Gilbert Smiley: September, 1948)

Loads, Variacs Used with Incandescent Lamps and Other Resistive (Gilbert Smiley: September, 1948)

Low-Speed Stroboscope, A High-Power (W. R. Saylor: May, 1949)

Low-Frequency Multiplier for the Vacuum-Tube Voltmeter, A (December, 1948)

Magnetic Test Set, The Type 1670-A (Horatio W. Lamson: August, 1948)

Making a Good Instrument Better (D. B. Sinclair: June, 1948)

Measurements, A Counting-Rate Meter for Radioactivity (A. G. Bousquet: July-August, 1947)

Measurements, A Variac Circuit for Regulation (Gilbert Smiley: November, 1947)

Measurements at Frequencies between 50 Kilocycles and 5 Megacycles, A New Bridge for Impedance (R. A. Soderman: March, 1949)

Measurements, Audio-Frequency Distortion and Noise (A. E. Thiessen: December, 1947)

Measurements on I-F Transformers with the Type 916-A R-F Bridge (R. A. Soderman: January, 1949)

Measuring Instrument, A Compact Radio-Frequency Capacitance (W. F. Byers: November, 1948)

Meter, A Bridge-Type Audio-Frequency (Martin A. Gilman: February, 1948)

Meter for Radioactivity Measurements, A Counting-Rate (A. G. Bousquet: July-August, 1947)

Microflash Looks at Shotgun Compensators, The (March, 1949)

Microvolter, A New Model of the (Arnold P. G. Peterson: June, 1948)

Mode Indicator, A Crystal (J. K. Clapp: February, 1949)

Monitor for Broadcast and Television Services, Type 1170-A F-M (C. A. Cady: October, 1947)

Monitor for Television Video Transmitters, A Frequency (C. A. Cady: September, 1948)

Monitor for Television Video Transmitters and Other A-M Services, A Frequency (C. A. Cady: September, 1947)

More Variac Watts for Your Dollar (Gilbert Smiley: December, 1948)

Motor Speed Controls, Variac (W. N. Tuttle: April, 1949)

Multiplier for the Vacuum-Tube Voltmeter, A Low-Frequency (December, 1948)

Multiplier for the Vacuum-Tube Voltmeter, A Voltage (May, 1948)

New Bridge for Impedance Measurements at Frequencies between 50 Kilocycles and 5 Megacycles, A (R. A. Soderman: March, 1949)

New Electrical Units, The (R. F. Field: July-August, 1947)

New Electrical Units, The (R. F. Field: March-April, 1948)

New Model of the Microvolter, A (Arnold P. G. Peterson: June, 1948)

New Standard Parts (May, 1948)

Noise, Frequency-Loudness Chart for Industrial (September, 1947)

Noise Measurements, Audio-Frequency Distortion and (A. E. Thiessen: December, 1947)

Null Detector, An Improved Amplifier and (W. R. Thurston: February, 1948)

On the Equivalent Circuit and Performance of Plated Quartz Bars (J. K. Clapp: March-April, 1948)

Operation with Fixed Brush Setting, Variac (Gilbert Smiley: May, 1948)

Oscillator for Audio and Supersonic Frequencies, A Wide Range (C. A. Cady: November, 1947)

Oscillator, Automatic Recording with the Beat-Frequency (L. P. Reitz, I. G. Easton: January, 1948)

Parts, New Standard (May, 1948)

Power Cord Now Available, GR (June, 1948)

Precision Condenser, Increased Accuracy for the (R. F. Field: June, 1947)

Quartz Bars, On the Equivalent Circuit and Performance of Plated (J. K. Clapp: March-April, 1948)

R-F Bridge, Measurements on I-F Transformers with the Type 916-A (R. A. Soderman: January, 1949)

RG-8/U Cable, Coaxial Connectors for (February, 1949)

Radically New Coaxial Connector for the Laboratory, A (W. R. Thurston: October, 1948)

Radio-Frequency Bridge, Sensitivity of the Type 916-A (R. A. Soderman: January, 1948)

Radio-Frequency Capacitance Measuring Instrument, A Compact (W. F. Byers: November, 1948)

Radioactivity Measurements, A Counting-Rate Meter for (A. G. Bousquet: July-August, 1947)

Ratings, Variac (Gilbert Smiley: October, 1948)

Recording with the Beat-Frequency Oscillator, Automatic (L. P. Reitz, I. G. Easton: January, 1948)

Regulation Curves, V-Line Variac (Gilbert Smiley: November, 1947)

Regulation Measurements, A Variac Circuit for (Gilbert Smiley: November, 1947)

Resistive Loads, Variacs Used with Incandescent Lamps and Other (Gilbert Smiley: September, 1948)

Rotary Devices, Eccentricity Effects in Precision (Gilbert Smiley: January, 1948)

Sensitivity of the Type 916-A Radio-Frequency Bridge (R. A. Soderman: January, 1948)

Shotgun Compensators, The Microflash Looks at (March, 1949)

Speed Controls, Variac Motor (W. N. Tuttle: April, 1949)

Standard, The Interpolating Frequency (J. K. Clapp: December, 1948)

Stroboscope, A High-Power, Low-Speed (W. R. Saylor: May, 1949)

Supersonic Frequencies, A Wide-Range Oscillator for Audio and (C. A. Cady: November, 1947)

Television Services, Type 1170-A F-M Monitor for Broadcast and (C. A. Cady: October, 1947)

Television Video Transmitters, A Frequency Monitor for (C. A. Cady: September, 1948)

Television Video Transmitters and Other A-M Services, A Frequency Monitor for (C. A. Cady: September, 1947)

Transformers with the Type 916-A R-F Bridge, Measurements on I-F (R. A. Soderman: January, 1949)

Tubes, Geiger-Mueller Counter (March, 1949)

Type 916-A R-F Bridge, Measurements on I-F Transformers with the (R. A. Soderman: January, 1949)

Type 1170-A F-M Monitor for Broadcast and Television Services (C. A. Cady: October, 1947)

Type 1670-A Magnetic Test Set, The (Horatio W. Lamson: August, 1948)

Units, The New Electrical (R. F. Field: July-August, 1947)

Units, The New Electrical (R. F. Field: March-April, 1948)

V-20 Series Variacs--New, Standard Models Replace 100 Series--Ratings Increased (Gilbert Smiley: December, 1947)

V-Line Variac Regulation Curves (Gilbert Smiley: November, 1947)

Vacuum-Tube Bridge, Laboratory Exercises with the (January, 1949)

Vacuum-Tube Voltmeter, A Low-Frequency Multiplier for the (December, 1948)

Vacuum-Tube Voltmeter, A Voltage Multiplier for the (May, 1948)

Variac Circuit for Regulation Measurements, A (Gilbert Smiley: November, 1947)

Variac Motor Speed Controls (W. N. Tuttle: April, 1949)

Variac Operation with Fixed Brush Setting (Gilbert Smiley: May, 1948)

Variac Ratings (Gilbert Smiley: October, 1948)

Variac Regulation Curves, V-Line (Gilbert Smiley: November, 1947)

Variac Watts for Your Dollar, More (Gilbert Smiley: December, 1948)

Variacs--New, Standard Models Replace 100 Series--Ratings Increased, V-20 Series (Gilbert Smiley: December, 1947)

Variacs Used with Incandescent Lamps and Other Resistive Loads (Gilbert Smiley: September, 1948)

Versatile Voltage-Divider, The (P. K. McElroy: Part I, February, 1949, Part II, May, 1949)

Video Transmitters, A Frequency Monitor for Television (C. A. Cady: September, 1948)

Video Transmitters and Other A-M Services, A Frequency Monitor for Television (C. A. Cady: September, 1947)

Voltage-Divider, The Versatile (P. K. McElroy: Part I, February, 1949, Part II, May, 1949)

Voltage Multiplier for the Vacuum-Tube Voltmeter, A (May, 1948)

Voltmeter, A Low-Frequency Multiplier for the Vacuum-Tube (December, 1948)

Voltmeter, A Voltage Multiplier for the Vacuum-Tube (May, 1948)

Watts for Your Dollar, More Variac (Gilbert Smiley: December, 1948)

Wide-Range Capacitance Test Bridge, A (Ivan G. Easton: July, 1948)

Wide-Range Oscillator for Audio and Supersonic Frequencies, A (C. A. Cady: November, 1947)

Index by Type Number

CAP-35 Power Cord
GR Power Cord Now Available (June, 1948)

Type V-20 Variac
V-20 Series Variacs--New, Standard Models Replace 100 Series--Ratings Increased (Gilbert Smiley: December, 1947)

Type 546-B Microvolter
A New Model of the Microvolter (Arnold P. G. Peterson: June, 1948)

Type 561-D Vacuum-Tube Bridge
Laboratory Exercises with the Vacuum-Tube Bridge (January, 1949)

Type 650-A Impedance Bridge
Bridge in Braille (January, 1948)

Type 722-D Precision Condenser
Increased Accuracy for the Precision Condenser (R. F. Field: June, 1947)

Type 732-B Distortion and Noise Meter
Audio-Frequency Distortion and Noise Measurements (A. E. Thiessen: December, 1947)

Type 874 Coaxial Connector
A Radically New Coaxial Connector for the Laboratory (W. R. Thurston: October, 1948)
Coaxial Connectors for RG-8/U Cable (February, 1949)

Type 913-C Beat-Frequency Oscillator
Automatic Recording with the Beat-Frequency Oscillator (L. P. Reitz, I. G. Easton: January, 1948)

Type 916-A Radio-Frequency Bridge
Measurements on I-F Transformers with the Type 916-A R-F Bridge (R. A. Soderman: January, 1949)
Sensitivity of the Type 916-A Radio-Frequency Bridge (R. A. Soderman: January, 1948)

Type 916-AL Radio-Frequency Bridge
A New Bridge for Impedance Measurements at Frequencies between 50 Kilocycles and 5 Megacycles (R. A. Soderman: March, 1949)

Type 1110-A Interpolating Frequency Standard
The Interpolating Frequency Standard (J. K. Clapp: December, 1948)

Type 1141-A Audio-Frequency Meter
A Bridge-Type Audio-Frequency Meter (Martin A. Gilman: February, 1948)

Type 1170-A F-M Monitor
Type 1170-A F-M Monitor for Broadcast and Television Services (C. A. Cady: October, 1947)

Type 1175-B Frequency Monitor
Type 1175-BT Frequency Monitor
Type 1176-A Frequency Meter
A Frequency Monitor for Television Video Transmitters and Other A-M Services (C. A. Cady: September, 1947)

Type 1182-T Video Frequency Monitor
A Frequency Monitor for Television Video Transmitters (C. A. Cady: September, 1948)

Type 1190-A Quartz Bar
On the Equivalent Circuit and Performance of Plated Quartz Bars (J. K. Clapp: March-April, 1948)

Type 1205-A Unit Power Supply
Type 1206-A Unit Amplifier
Type 1207-A Unit Oscillator
Inexpensive, Basic Instruments for the Laboratory (November, 1948)

Type 1231-B Amplifier and Null Detector
An Improved Amplifier and Null Detector (W. R. Thurston: February, 1948)

Type 1302-A Oscillator
A Wide-Range Oscillator for Audio and Supersonic Frequencies (C. A. Cady: November, 1947)

Type 1304-A Beat-Frequency Oscillator
Making a Good Instrument Better (D. B. Sinclair: June, 1948)

Type 1500-A Counting-Rate Meter
A Counting-Rate Meter for Radioactivity Measurements (A. G. Bousquet: July-August, 1947)

Type 1500-P4 Counter Tube
Type 1500-P5 Counter Tube
Geiger-Mueller Counter Tubes (March, 1949)

Type 1530-A Microflash
The Microflash Looks at Shotgun Compensators (March, 1949)

Type 1532-A Strobolume
A High-Power, Low-Speed Stroboscope (W. R. Saylor: May, 1949)

Type 1611-A Capacitance Test Bridge
A Wide-Range Capacitance Test Bridge (Ivan G. Easton: July, 1948)

Type 1612-A Radio-Frequency Capacitance Meter
A Compact Radio-Frequency Capacitance Measuring Instrument (W. F. Byers: November, 1948)

Type 1670-A Magnetic Test Set
The Type 1670-A Magnetic Test Set (Horatio W. Lamson: August, 1948)

Type 1700-A Variac Speed Control
Variac Motor Speed Controls (W. N. Tuttle: April, 1949)

Type 1800-P2 Multiplier
A Voltage Multiplier for the Vacuum-Tube Voltmeter (May, 1948)

Type 1800-P3 Low-Frequency Multiplier
A Low-Frequency Multiplier for the Vacuum-Tube Voltmeter (December, 1948)

Index by Author

Bousquet, A. G.
A Counting-Rate Meter for Radioactivity Measurements (July-August, 1947)

Byers, W. F.
A Compact Radio-Frequency Capacitance Measuring Instrument (November, 1948)

Cady, C. A.
A Frequency Monitor for Television Video Transmitters (September, 1948)
A Frequency Monitor for Television Video Transmitters and Other A-M Services (September, 1947)
A Wide-Range Oscillator for Audio and Supersonic Frequencies (November, 1947)
Type 1170-A F-M Monitor for Broadcast and Television Services (October, 1947)

Clapp, J. K.
A Crystal Mode Indicator (February, 1949)
On the Equivalent Circuit and Performance of Plated Quartz Bars (March-April, 1948)
The Interpolating Frequency Standard (December, 1948)

Easton, Ivan G.
A Wide-Range Capacitance Test Bridge (July, 1948)
Automatic Recording with the Beat-Frequency Oscillator(January, 1948)

Field, R. F.
Increased Accuracy for the Precision Condenser (June, 1947)
The New Electrical Units (July-August, 1947)
The New Electrical Units (March-April, 1948)

Gilman, Martin A.
A Bridge-Type Audio-Frequency Meter (February, 1948)

Lamson, Horatio W.
The Type 1670-A Magnetic Test Set (August, 1948)

McElroy, P. K.
The Versatile Voltage-Divider (Part I, February, 1949; Part II, May, 1949)

Peterson, Arnold P. G.
A New Model of the Microvolter (June, 1948)

Reitz, L. P.
Automatic Recording with the Beat-Frequency Oscillator (January, 1948)

Saylor, W. R.
A High-Power, Low-Speed Stroboscope (May, 1949)

Sinclair, D. B.
Making a Good Instrument Better (June, 1948)

Smiley, Gilbert
A Variac Circuit for Regulation Measurements (November, 1947)
Eccentricity Effects in Precision Rotary Devices (January, 1948)
V-20 Series Variacs--New, Standard Models Replace 100 Series--Ratings Increased (December, 1947)
V-Line Variac Regulation Curves (November, 1947)
More Variac Watts for Your Dollar (December, 1948)
Variac Operation with Fixed Brush Setting (May, 1948)
Variac Ratings (October, 1948)
Variacs Used with Incandescent Lamps and Other Resistive Loads (September, 1948)

Soderman, R. A.
A New Bridge for Impedance Measurements at Frequencies between 50 Kilocycles and 5 Megacycles (March, 1949)
Measurements on I-F Transformers with the Type 916-A R-F Bridge (January, 1949)
Sensitivity of the Type 916-A Radio-Frequency Bridge (January, 1948)

Thiessen, A. F.
Audio-Frequency Distortion and Noise Measurements (December, 1947)

Thurston, W. R.
A Radically New Coaxial Connector for the Laboratory (October, 1948)
An Improved Amplifier and Null Detector (February, 1948)

Tuttle, W. N.
Variac Motor Speed Controls (April, 1949)
